INDEPENDENT AUDITORS' REPORT TO THE SHAREHOLDERS OF THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION OF BEIRUT CENTRAL DISTRICT S.A.L.

Opinion

We have audited the accompanying consolidated financial statements of The Lebanese Company for the Development and Reconstruction of Beirut Central District S.A.L. (the "Company") and its subsidiaries (collectively referred to the "Group"), which comprise the Consolidated statement of financial position as at December 31, 2017, and the consolidated statement of profit or loss, consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as at December 31, 2017, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (IFRSs).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) together with the ethical requirements that are relevant to our audit of the consolidated financial statements in Lebanon, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the year ended December 31, 2017. We have determined the matter described below to be the key audit matter to be communicated in our report. This matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter. Our description of how our audit addressed this matter is provided in that context.

We have fulfilled the responsibilities described in the “*Auditors’ Responsibilities for the Audit of the Consolidated Financial Statements*” section of our report, including in relation to this matter. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matter below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Key Audit Matter

Impairment of receivables

Due to the inherently judgmental nature of the computation of impairment provisions for notes and accounts receivable, there is a risk that the amount of impairment may be misstated. The impairment of notes and accounts receivable is estimated by management through the application of judgment and the use of subjective assumptions. Due to the significance of notes receivable and related estimation uncertainty, this is considered a key audit risk. The notes receivable portfolio generally comprises large balances that are monitored individually by management. The assessment of notes receivable impairment is therefore based on management’s knowledge of each individual borrower in addition to a collective assessment of impairment based on a statistical model.

Note 8 to the consolidated financial statements discloses information on notes and accounts receivable and related impairment provision.

Other Information

Management is responsible for the other information. Other information consists of the information included in the Group’s 2017 Annual Report other than the consolidated financial statements and our auditor’s report thereon. The Group’s 2017 Annual Report is expected to be made available to us after the date of this auditor’s report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

How our audit addresses the Key Audit Matter

These risks were addressed by us as follows:

- Specific impairment allowances are calculated on an individual basis when collection of the full amount is no longer probable. We have performed a detailed credit assessment on all notes and accounts receivable in excess of a defined threshold and assessed the accuracy of the specific provision booked by the Group.
- Where impairment allowance was calculated on a collective basis, we tested the completeness and accuracy of the underlying information used in the impairment model by agreeing details to the Group’s source systems as well as re-performing the calculation of the modelled impairment allowances. For the key assumptions in the model, we assessed whether those assumptions were appropriate in the circumstances.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error. In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

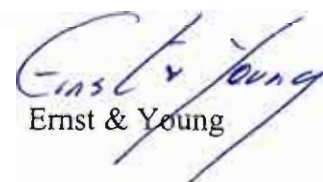

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication

The partners in charge of the audit resulting in this independent auditors' report are Nada Maalouf for Deloitte & Touche and Nadim Dimashkieh for Ernst & Young.

**THE LEBANESE COMPANY FOR THE DEVELOPMENT AND RECONSTRUCTION
OF BEIRUT CENTRAL DISTRICT S.A.L.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2017**

1. FORMATION AND OBJECTIVE OF THE COMPANY

The Lebanese Company for the Development and Reconstruction of Beirut Central District S.A.L. (SOLIDERE) (the "Company") was established as a Lebanese joint stock company on May 5, 1994 based on Law No. 117/91, and was registered on May 10, 1994 under Commercial Registration No. 67000. The articles of incorporation of the Company were approved by Decree No. 2537 dated July 22, 1992.

The objective of the Company, is to acquire real estate properties, to finance and ensure the execution of all infrastructure works in the Beirut Central District (BCD) area, to prepare and reconstruct the BCD area, to reconstruct or restore the existing buildings, to erect buildings and sell, lease or exploit such buildings and lots and to develop the landfill on the seaside.

The duration of the Company is 25 years, beginning from the date of establishment. An extraordinary general assembly dated June 29, 1998 resolved to amend the duration of the Company to be 75 years beginning from the date of establishment. During 2005, the Council of Ministers approved the extension of the duration of the Company for 10 years.

The Company, based on law No.117/91 mentioned above, was exempt from income tax for a period of ten years beginning on the date of formation. As such beginning May 10, 2004, the Company became subject to income tax.

An extraordinary general assembly dated November 13, 2006 resolved to amend the objective of the Company to include providing services and consultancy in real estate development for projects outside the BCD area and all over the world.

During 2007, the Company granted Solidere International Limited (an associate) the right to use the "Solidere" brand in the execution of real estate projects outside the Beirut Central District area of Lebanon.

The Company's shares are listed on the Beirut stock exchange. In its meeting held on December 1, 2016, the Board of Directors approved the delisting of the Company's GDR's from the London Stock Exchange. On August 14, 2017, the holders of the GDR's were notified by the Depositary that the existing GDR facility will be terminated effective August 25, 2017. The delisting was finalized prior to 2017 year end.

2. CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

2.1 New and revised IFRS applied with no material effects on the consolidated financial statements

The accounting policies adopted in the preparation of the consolidated financial statements are consistent with those followed in the preparation of the Company's annual consolidated financial statements for the year ended December 31, 2016 except for the adoption of amended standards and interpretations effective as of January 1, 2017, noted below:

Amendments to IAS 7 *Statement of Cash Flows*: Disclosure Initiative

The amendments require entities to provide disclosure of changes in their liabilities arising from financing activities, including both changes arising from cash flows and non-cash changes such as foreign exchange gains or losses.

Amendments to IAS 12 *Income Taxes*: Recognition of Deferred Tax Assets for Unrecognised Losses

The amendments clarify that an entity needs to consider whether tax law restricts the sources of taxable profits against which it may take deductions on the reversal of deductible temporary difference related to unrealized losses. Furthermore, the amendments provide guidance on how an entity should determine future taxable profits and explain the circumstances in which taxable profit may include the recovery of some assets for more than their carrying amount.

Annual Improvements Cycle - 2014-2016

Amendments to IFRS 12 *Disclosure of Interests in Other Entities*: Clarification of the scope of disclosure requirements in IFRS 12

The amendments clarify that the disclosure requirements in IFRS 12, other than those in paragraph B10-B16, apply to an entity's interest in a subsidiary, a joint venture or an associate (or a portion of its interest in a joint venture or an associate) that is classified (or included in a disposal group that is classified) as held for sale.

The adoption of the above amendments (where applicable) did not have a significant impact on the Group's financial position or performance.

2.2 New And Revised IFRS In Issue But Not Yet Effective

The Group has not yet applied the following new and revised IFRSs and IASs that have been issued but are not yet effective:

New and revised IFRSs and IASs	Effective for annual periods beginning on or after
IFRS 9 Financial Instruments (revised versions in 2009, 2010, 2013 and 2014)	January 1, 2018
<p>IFRS 9 issued in November 2009 introduced new requirements for the classification and measurement of financial assets. IFRS 9 was subsequently amended in October 2010 to include requirements for the classification and measurement of financial liabilities and for derecognition, and in November 2013 to include the new requirements for general hedge accounting. Another revised version of IFRS 9 was issued in July 2014 mainly to include a) impairment requirements for financial assets and b) limited amendments to the classification and measurement requirements by introducing a 'fair value through other comprehensive income' (FVTOCI) measurement category for certain simple debt instruments.</p> <p>A finalized version of IFRS 9 which contains accounting requirements for financial instruments, replacing IAS 39 Financial Instruments: Recognition and Measurement. The standard contains requirements in the following areas:</p> <ul style="list-style-type: none">• Classification and measurement: Financial assets are classified by reference to the business model within which they are held and their contractual cash flow characteristics. The 2014 version of IFRS 9 introduces a 'fair value through other comprehensive income' category for certain debt instruments. Financial liabilities are classified in a similar manner to under IAS 39, however there are differences in the requirements applying to the measurement of an entity's own credit risk.• Impairment: The 2014 version of IFRS 9 introduces an 'expected credit loss' model for the measurement of the impairment of financial assets, so it is no longer necessary for a credit event to have occurred before a credit loss is recognized• Hedge accounting: Introduces a new hedge accounting model that is designed to be more closely aligned with how entities undertake risk management activities when hedging financial and non-financial risk exposures.• Derecognition: The requirements for the derecognition of financial assets and liabilities are carried forward from IAS 39.

Amendments to IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures (2011) relating to the treatment of the sale or contribution of assets from and investor to its associate or joint venture	Effective date deferred indefinitely
IFRS 16 Leases	January 1, 2019
IFRS 16 specifies how an IFRS reporter will recognise, measure, present and disclose leases. The standard provides a single lessee accounting model, requiring lessees to recognise assets and liabilities for all leases unless the lease term is 12 months or less or the underlying asset has a low value. Lessors continue to classify leases as operating or finance, with IFRS 16's approach to lessor accounting substantially unchanged from its predecessor, IAS 17.	
Amendments to IAS 28 Investment in Associates and Joint Ventures: Relating to long-term interests in associates and joint ventures. These amendments clarify that an entity applies IFRS 9 Financial Instruments to long-term interests in an associate or joint venture that form part of the net investment in the associate or joint venture but to which the equity method is not applied. IFRS 17 Insurance Contracts

January 1, 2021

IFRS 17 requires insurance liabilities to be measured at a current fulfilment value and provides a more uniform measurement and presentation approach for all insurance contracts. These requirements are designed to achieve the goal of a consistent, principle-based accounting for insurance contracts. IFRS 17 supersedes IFRS 4 Insurance Contracts as of January 1, 2021.

IFRS 15 *Revenue from Contracts with Customers*

January 1, 2018

In May 2014, IFRS 15 was issued which established a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. IFRS 15 will supersede the current revenue recognition guidance including IAS 18 *Revenue*, IAS 11 *Construction Contracts* and the related interpretations when it becomes effective.

The core principle of IFRS 15 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the standard introduces a 5 step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract.
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract.
- Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation

Under IFRS 15, an entity recognizes when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to the customer. Far more prescriptive guidance has been added in IFRS 15 to deal with specific scenarios. Furthermore, extensive disclosures are required by IFRS 15.

Management anticipates that these new standards, interpretations and amendments will be adopted in the Group's financial statements as and when they are applicable. Except for IFRS 9, IFRS 15 and IFRS 16, the adoption of these new standards, interpretations and amendments, will not have a significant impact on the consolidated financial statements of the Group in the period of initial application.

Management anticipates that IFRS 15 and IFRS 9 will be adopted in the Group's consolidated financial statements for the annual period beginning January 1, 2018 and that IFRS 16 will be adopted in the Group's consolidated financial statements for the annual period beginning January 1, 2019. The Group is currently assessing the quantitative impact of the above mentioned new standards on its consolidated financial statements at the transition date. However, management do not expect a significant impact upon transition.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation and Statement of Compliance:

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards.

The consolidated financial statements are presented in U.S. Dollars.

The consolidated financial statements are prepared under the historical cost convention as modified for the measurement at fair value of available-for-sale financial assets and derivatives, as applicable.

The consolidated financial statements incorporate the financial statements of The Lebanese Company for the Development and Reconstruction of Beirut Central District S.A.L. and its controlled subsidiaries drawn up to December 31 of each year. Control is achieved when the Company is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Company controls an investee if and only if the Company has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee),
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

When the Company has less than a majority of the voting or similar rights of an investee, the Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee,
- Rights arising from other contractual arrangements, and
- The Company's voting rights and potential voting rights.

The Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Company obtains control over the subsidiary and ceases when the Company loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the statement of profit or loss from the date the Company gains control until the date the Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Company loses control over a subsidiary, it:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary
- Derecognizes the carrying amount of any non-controlling interests
- Derecognizes the cumulative translation differences recorded in equity
- Recognizes the fair value of the consideration received
- Recognizes the fair value of any investment retained
- Recognizes any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognized in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Company had directly disposed of the related assets or liabilities.

Group entities comprise the following:

The significant accounting policies adopted are set out below:

In view of the long term nature and particulars of the Group's operations, the consolidated financial statements are presented on the basis that the operations have realization and liquidation periods spread over the duration of the Group and which are subject to market conditions and other factors commonly associated with real estate development projects; as such, the consolidated statement of financial position is shown as unclassified without distinction between current and long-term components. However, current and non-current classification of assets and liabilities is disclosed under Note 36.

B. Foreign Currencies:

The functional and presentation currency is the U.S. Dollar, in accordance with the applicable law, which reflects the economic substance of the underlying events and circumstances of the Group. Transactions denominated in other currencies are translated into U.S. Dollar at the exchange rates prevailing at the dates of the transactions. Monetary assets and liabilities stated in currencies other than the U.S. Dollar are translated at the rates of exchange prevailing at the end of the year. The resulting exchange gain or loss is reflected in the consolidated statement of profit or loss. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

C. Financial Instruments:

Financial assets and financial liabilities are recognized in the Group's consolidated statement of financial position when the Group becomes a party to the contractual provisions of the instrument.

When a financial instrument gives rise to a contractual obligation on the part of the Group to deliver cash or another financial asset or to exchange another financial instrument under conditions that are potentially unfavorable, it is classified as a financial liability. The instrument is an equity instrument if, and only if, both conditions (a) and (b) below are met:

- (a) The instrument includes no contractual obligation to deliver cash or another financial asset to another entity; or to exchange financial assets or financial liabilities with another entity under conditions that are potentially unfavorable to the issuer.
- (b) If the instrument will or may be settled from the Group's own equity instruments; it is a non-derivative that includes no contractual obligation for the Group to deliver a variable number of its own equity instruments; or a derivative that will be settled only by the Group exchanging a fixed amount of cash or another financial asset for a fixed number of its own equity instruments.

Financial assets within the scope of IAS 39 are classified as financial assets at fair value through profit or loss, loans and receivables, held-to-maturity investments or available-for-sale financial assets, as appropriate. When financial assets are recognized initially, they are measured at fair value, plus, in the case of investments not at fair value through profit or loss, directly attributable transaction costs.

The Group determines the classification of its financial assets on initial recognition and, where allowed and appropriate, re-evaluates this designation at each financial year end.

All regular way purchases and sales of financial assets are recognized on the trade date, which is the date that the Group commits to purchase or sell the asset. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace.

Loans and Receivables:

Loans and receivables which include investment in asset-backed securities are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, loans and receivables are carried at amortized cost using the effective interest method less any allowance for impairment. Gains and losses are recognized in profit or loss when the loans and receivables are derecognized or impaired as well as through the amortization process.

Held-to-Maturity Investment Securities

Held-to-maturity investments are non-derivative assets with fixed or determinable payments and fixed maturity that the Group has the positive intent and ability to hold to maturity, and which are not designated as at fair value through profit or loss or as available-for-sale.

Held-to maturity investments are carried at amortized cost.

Impairment and Uncollectibility of Financial Assets:

An assessment is made at each consolidated statement of financial position date to determine whether there is objective evidence that a financial asset or group of financial assets may be impaired. If such evidence exists, the estimated recoverable amount of that asset or group of assets and any impairment loss are determined based on the net present value of expected future cash flows discounted at original effective interest rates. Impairment losses are recognized in the consolidated statement of profit or loss.

If the Group determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continues to be, recognized are not included in a collective assessment of impairment.

Fair Value Measurement:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair measurement as a whole:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Derecognition:

Financial assets

A financial asset (or where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized where:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset, or has assumed an obligation to pay the received cash flow in full without material delay to a third party under a 'pass through' arrangement, and
- Either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is derecognized to the extent of the Group's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

When continuing involvement takes the form of a written and/or purchased option (including a cash settled option or similar provision) on the transferred asset, the extent of the Group's continuing involvement is the amount of the transferred asset that the Group may repurchase, except that in the case of a written put option (including a cash settled option or similar provision) on an asset measured at fair value, the extent of the Group's continuing involvement is limited to the lower of the fair value of the transferred asset and the option exercise price.

Financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability and the difference in the respective carrying amount is recognized in the consolidated statement of profit or loss.

Offsetting:

Financial assets and financial liabilities are only offset and the net amount is reported in the consolidated statement of financial position when there is a legally enforceable right to set-off the recognized amounts and the Group intends to either settle on a net basis, or to realize the asset and settle the liability simultaneously.

D. Inventory of Land and Projects in Progress:

Inventory of land and projects in progress are stated at the lower of cost and estimated net realizable value. Costs include appraisal values of real estate plots constituting the contributions in kind to capital (A shares), in addition to capitalized costs. Capitalized costs comprise the following:

- Project direct costs and overheads related to the properties development, construction and project management as a whole, as well as acquisition, zoning, and eviction costs.
- Indirect costs, such as overheads, which were partially allocated to inventory of land and projects in progress.
- Borrowing cost as defined in Note 3(M).

E. Investment Properties:

Investment properties which represent properties held to earn rent and/or for capital appreciation are measured initially at cost and subsequent to initial recognition are stated at their cost less accumulated depreciation and any impairment in value.

Depreciation is computed using the straight-line method over the estimated useful lives of the properties, excluding the cost of land, based on the following annual rates:

	<u>2017</u>	<u>2016</u>
Buildings	2%	2%
Furniture, fixtures, equipment and other assets	8%-20%	4%-15%

The carrying amount includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met. Other subsequent expenditure is capitalized only when it increases future economic benefits of the related item of investment properties. All other expenditure is recognized in the consolidated statement of income as the expense is incurred.

Transfers are made to investment properties when, and only when, there is a change in use, evidenced by the end of owner occupation, commencement of an operating lease to another party or completion of construction or development.

Transfers are made from investment properties when, and only when, there is a change in use, evidenced by commencement of owner occupation or commencement of development with a view to sell.

F. Investment in Associates and Joint Ventures:

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The considerations made in determining significant influence or joint control are similar to those necessary to determine control over subsidiaries.

The Group's investments in associates and joint ventures are accounted for using the equity method. Under the equity method, the investment in an associate or a joint venture is initially recognized at cost. The carrying amount of the investment is adjusted to recognize changes in the

Group's share of net assets of the associate or joint venture since the acquisition date. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is neither amortized nor individually tested for impairment.

The consolidated statement of profit or loss reflects the Group's share of the results of operations of the associate or joint venture. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognized directly in the equity of the associate or joint venture, the Group recognizes its share of any changes, when applicable, in the statement of changes in equity. Unrealized gains and losses resulting from transactions between the Group and the associate or joint venture are eliminated to the extent of the interest in the associate or joint venture.

The aggregate of the Group's share of profit or loss of associates and joint ventures is shown on the face of the statement of profit or loss outside operating profit and represents profit or loss after tax and non-controlling interests in the subsidiaries of the associate or joint venture. The financial statements of associates or joint ventures are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognize an impairment loss on its investment in its associate or joint venture. At each reporting date, the Group determines whether there is objective evidence that the investment in the associate or joint venture is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value, then recognizes the loss as 'Share of results of associates and joint ventures' in the consolidated statement of profit or loss.

Upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognizes any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognized in profit or loss.

G. Fixed Assets:

Fixed assets are stated at cost net of accumulated depreciation and any impairment in value. Depreciation is computed using the straight-line method over the estimated useful lives of the assets based on the following annual rates:

	<u>2017</u>	<u>2016</u>
Buildings	2%-6%	2%
Marina	2%	2%
Furniture and fixtures	8%	9%
Freehold improvements	8%	9%
Machines and equipment	6%-20%	15%-20%

Expenditure incurred to replace a component of an item of fixed assets that is accounted for separately is capitalized and the carrying amount of the component that is replaced is written off. Other subsequent expenditure is capitalized only when it increases future economic benefits of the related item of fixed assets. All other expenditure is recognized in the consolidated statement of profit or loss as the expense is incurred.

H. Impairment of Tangible Assets:

At each consolidated statement of financial position date, the carrying amounts of tangible assets (investment properties, fixed assets and inventory of land and projects in progress) are reviewed to determine whether there is any indication that these assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any.

Recoverable amount is defined as the higher of:

- Fair value that reflects market conditions at the balance sheet date less cost to sell, if any.
- Value in use assessed as the present value of estimated future cash flows expected to arise from the continuing use of the asset and from its disposal at the end of its useful life, only for applicable assets with cash generation units, as applicable.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset in prior years. A reversal of an impairment loss is recognized immediately in the consolidated statement of profit or loss, unless the relevant asset is carried at a revalued amount, in which case the reversal of the impairment loss is treated as a revaluation increase.

The impairment loss is recognized in the consolidated statement of profit or loss.

I. Treasury Shares:

Own equity instruments which are reacquired (treasury shares) are deducted from equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Group's own equity instruments.

Gains on sale of treasury shares are recorded under a reserve account in equity. Losses in excess of previously recognized gains are charged to retained earnings.

J. Revenue Recognition:

Revenue on land and real estate sales transactions is recognized on the basis of the full accrual method as and when the following conditions are met:

- A sale is consummated and contracts are signed.
- The buyer's initial (in principle over 25% of sales price) and continuing investments are adequate to demonstrate a commitment to pay for the property.
- The Group's receivable is not subject to future subordination.
- The Group has transferred to the buyer the usual risks and rewards of ownership in a transaction that is in substance a sale and the Group does not have a substantial continuing involvement with the property.

If any of the above conditions is not met, the initial payments received from buyers are recorded under deferred revenues and other credit balances. Amounts are released to revenue as and when the above conditions are fulfilled.

Financial assets (including treasury shares) received in return for the sale of land and real estate are valued at fair market value.

Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease.

Interest income is recognized as interest accrues using the effective interest method, by reference to the principal outstanding and the applicable interest rate.

Revenue from rendering of services is recognized when the outcome of the transaction can be estimated reliably, by reference to the stage of completion of the transaction at the consolidated statement of financial position date.

Revenue from hospitality consists mainly of food and beverage revenue, and is recognized when the related services are provided.

Revenue from broadband network services is recognized when the service is rendered.

K. Cost of Sales:

Cost of properties sold is determined on the basis of the built up area (BUA) - permitted right to build in square meters - on the sold plots based on the terms of the sales agreements. The cost of one square meter of BUA is arrived at by dividing, total estimated cost of the land development project over total available BUA after deduction of the BUA relating to recuperated properties and those relating to the religious and public administrations.

L. Cash and Cash Equivalents:

For the purpose of the statement of cash flows, cash and cash equivalents consists of cash in hand, bank balances, and short-term deposits with an original maturity of three months or less, net of outstanding bank overdrafts and short-term facilities with an original maturity of three months or less.

M. Borrowing Costs:

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, and inventory of land and projects in progress, and investing of land and projects in process, which are assets that necessarily take a substantial period of time to be ready for their intended use, are added to the cost of those assets, until such time that the assets are substantially ready for their intended use.

All other borrowing costs are reflected in the consolidated statement of profit or loss in the period in which they are incurred.

N. Bank Borrowings:

Interest-bearing bank loans and overdrafts are initially measured at the fair value of the consideration received, less directly attributable costs and are subsequently measured at amortized cost, using the effective interest rate method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognized in profit or loss over the term of the borrowings through the amortization process, using the effective interest rate method.

O. Trade and other payables:

Trade and other payables are initially measured at fair value. Due to their short-term nature, the carrying amount of trade and other payables approximates their fair values as of the date of the consolidated statement of financial position. Average maturity dates of trade payables range between 30-90 days. Short duration payables with no stated interest rate are measured at original invoice amount unless the effect of imputing interest is significant.

P. Taxation:

Current Tax

Income tax is determined and provided for in accordance with the Lebanese tax laws. Income tax expense is calculated based on the taxable profit for the year. Taxable profit differs from net profit as reported in the consolidated statement of profit or loss because it excludes items of income or expense that are taxable or deductible in future years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates enacted at the consolidated statement of financial position date. Provision for income tax is reflected in the consolidated statement of financial position net of taxes previously settled in the form of withholding tax.

Deferred tax

Deferred income tax is provided, using the liability method, on all temporary differences at the consolidated statement of financial position date between the tax bases of assets and liabilities and their carrying amounts.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on laws that have been enacted at the consolidated statement of financial position date.

Deferred income tax assets are recognized for all deductible temporary differences and carry-forward of unused tax assets and unused tax losses to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax assets and unused tax losses can be utilized.

The carrying amount of deferred income tax assets is reviewed at each consolidated statement of financial position date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Taxes payable on unrealized revenues are deferred until the revenue is realized.

Current tax and deferred tax relating to items that are credited or charged directly to other comprehensive income are recognized directly in other comprehensive income.

Q. Provisions:

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the present obligation at the consolidated statement of financial position date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of these cash flows.

R. Employees' End-of-Service Benefits:

The Group provides end-of-service benefits to its employees. The entitlement to these benefits is based upon the employees' final salary and length of service, subject to the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment.

S. Earnings per Share:

The Group presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares.

T. Dividends on shares

Dividends on shares are recognized as a liability and deducted from equity when they are approved by the General Assembly of the Company's shareholders. Interim dividends are deducted from equity when they are declared and no longer at the discretion of the Group.

Dividends for the year that are approved after the reporting date are disclosed as an event after the reporting date.

4. CRITICAL ACCOUNTING JUDGMENTS AND USE OF ESTIMATES

In the application of the accounting policies described in Note 3 above, management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The most significant estimate made by the Group is the determination of the aggregate cost of the Beirut Central District Project.

Going Concern

The Group's management has made an assessment of the Group's ability to continue as a going concern and is satisfied that the Group has the resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Group's ability to continue as a going concern. Therefore the consolidated financial statements continue to be prepared on the going concern basis.

Impairment of Accounts and Notes Receivable and Investment in Assets-Backed Securities

An estimate of the collectible amount of accounts and notes receivable and investment in asset-backed securities is made when collection of the full amount is no longer probable. For individually significant amounts, this estimation is performed on an individual basis. Amounts which are not individually significant, but which are past due, are assessed collectively and a provision is set up according to the length of time past due, based on historical recovery rates.

Any difference between the amounts actually collected in future periods and the amounts expected to be collected will be recognized in the consolidated statement of profit or loss.

Impairment of Investment in Joint Ventures and Associates

The Group assesses at each reporting date whether there is indication that an investment may be impaired. If any indication exists the Group estimates the investment's recoverable amount. When the cost of the investment exceeds the recoverable amount, the investment is considered impaired and a provision for impairment is setup representing the difference between the investment's recoverable amount and its carrying value. The provision is charged to the consolidated statement of profit or loss.

Estimation of Net Realizable Value for Inventory of Property and Investment Properties

Inventory property is stated at the lower of cost and net realizable value (NRV). NRV for completed inventory property is assessed by reference to market conditions and prices existing at the reporting date and is determined by the Group, based on comparable transactions identified by the Group for properties in the same geographical market serving the same real estate segment. NRV in respect of inventory property under construction is assessed with reference to market prices at reporting date for similar completed property, less estimated cost to complete construction, and an estimate of the time value of money to the date of completion

5. OPERATING SEGMENTS

For management purposes, the Group is organized into business units according to their operations and has three reportable segments as follows:

- Real estate sales
- Real estate rental and rendered services

No operating segments have been aggregated to form the above reportable operating segments. Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit and loss and is measured consistently with operating profit or loss in the consolidated financial statements.

(e) During 2017, the Group setup a provision in the amount of US\$9,314,000 for collectively assessed receivables (2016: US\$10,000,000).

9. INVESTMENT IN ASSET-BACKED SECURITIES

During 2013, the Group signed an agreement with a local financial institution to securitize notes receivable with an aggregate nominal value of US\$185million relating to 4 customers creating Beirut Central District SIF 1 Fund (the BCD 1 Fund). As a result, the Group collected an amount of US\$93,821,227, net of reserve account and transaction costs.

The Group subscribed to the following notes issued by the BCD 1 Fund:

Class of Notes	Total Issuance US\$	Subscription Amount US\$	Carrying Amount		Interest Rate %

Class A Notes are redeemable on a semi-annual basis. Class B Notes are also redeemable on a semi-annual basis provided the redeemable portion of Class A Notes is settled and funds are available. Class A and Class B Notes are classified as "loans and receivables". Class B Notes are subordinated to Class A Notes. Class C Notes are subordinated to Class A and Class B Notes and will be repaid by the BCD 1 Fund solely if excess funds are available from collection of assets. Class C Notes are classified as held-to-maturity.

Interest on Class B Notes is non-cumulative and is paid solely from available funds after payment of the BCD 1 Fund's dues for the related periods.

During 2016, the BCD 1 Fund redeemed all class A notes and started redeeming Class B Notes.

During 2017, the Group setup provision for impairment in the amount of US\$8,990,000 recorded under "Provision for impairment" in the consolidated statement of profit or loss (US\$ nil in 2016).

The Group earned an amount of US\$ nil during 2017 (US\$374,471 during 2016) representing its share in additional income allocated by the BCD 1 Fund to Class "A" Note holders based on the approval of the note holders assembly held, recorded under "Interest income" in the separate statement of profit or loss (Note 26)

Interest income on Class B Notes in the amount of US\$1,428,401 for the year 2017 (US\$1,198,028 on Class A & B for the year 2016) is recorded under "Interest income " in the consolidated statement of profit or loss (Note 26).

The Group placed a reserve account in the amount of US\$6,650,000, as stipulated by the BCD 1 Fund's regulations, to cover any shortfall in payments of principal and interest of the asset-backed securities issued by the BCD 1 Fund and to cover the senior expenses of the BCD 1 Fund. According to the BCD 1 Fund regulations, the reserve account balance should be maintained at US\$6,650,000. During 2017, an amount of US\$1,506,058 was used to cover the shortfall in payments (US\$4,351,398 during 2016).

The decrease in the reserve account in the aggregate of US\$10,785,886 up to December 31, 2017 (US\$9,279,831 up to December 31, 2016) was recorded under "Deferred charges from securitization of notes under "Accounts and notes receivables, net" and will be covered from any subsequent distribution made by the BCD 1 Fund (Note 8).

The movement of the reserve account receivable from BCD 1 Fund presented under accounts receivable (Note 8), is as follows:

(a.1) Acquired properties consist mainly of the aggregate initial appraised value attributed to the plots included in the BCD area of US\$1,170,001,290 net of the recuperated properties. The aggregate appraised value is determined in accordance with Decree No. 2236 (dated February 19, 1992 based on the decision of the Higher Appraisal Committee, which was established in accordance with Law No. 117/91). Acquired properties include the value of purchased and exchanged properties as well.

Law No. 117/91 stated the requirements for property recuperation and exemption. In this respect properties appraised at US\$255million were recuperated by original owners and properties appraised at US\$133million were not claimed for recuperation.

(a.2) Pre-acquisition costs include technical and master plan studies incurred during the set up period of the Group.

(a.3) Infrastructure costs consists of the following:

	<u>December 31,</u>

	<u>916,377,447</u>	<u>877,070,669</u>

(a.4) Eviction costs represent the costs of relocating previous settlers out of the BCD area which were mainly paid through the Central Fund for the Displaced (a public authority). This caption is stated net of US\$22.2million as of December 31, 2017 (US\$22.2million as of December 31, 2016) representing a 10% charge on recuperated properties appraised values collected from original owners other than religious and governmental recuperated properties.

(a.5) Capitalized costs represent allocation of direct overheads. Costs capitalized during the year ended December 31, 2017 before indirect costs reallocation amounted to US\$5.7 million (US\$7.6 million during the year ended December 31, 2016) (Note 25).

(a.6) During 2016, a sale entered into in 2014 was derecognized and as a result the cost of land amounting to US\$5,283,000 was recorded under inventory of land and land development.

(b) Real estate development projects include the following:

- (a) The Group entered into a joint venture agreement on February 11, 2004, with Stow Waterfront S.A.L. (Holding) to establish Beirut Waterfront Development S.A.L. with a 50% stake in the joint venture's total capital amounting to US\$19,900. During the year 2006, the capital of the joint venture was increased to US\$12,819,900 without changing the Group's share in the capital. The main activity of the joint venture is to develop, operate, manage, exploit and sell real estate properties in the Marina area in Beirut Central District.

As per the terms of the agreement, on December 31, 2005, the Group sold properties with an aggregate cost of US\$10,100,000 from inventory of land and projects in progress, to the joint venture for a total consideration of US\$31,600,000. As a result of the sale transaction, the Group realized 50% of the gain on the sale in the amount of US\$10,750,000 in profit or loss in 2005 and deferred the unrealized gain on sales in the amount of US\$10,750,000, recorded under "deferred revenues and other credit balances" in the consolidated statement of financial position, to be realized after realization of the sale of the properties to third parties (Note 17).

During 2015, the general assembly of shareholders of the joint venture approved a capital increase. The Group subscribed, in cash, in the capital increase for an amount of US\$4,975,125 representing its share in the increase.

On June 27, 2006, the Group granted Beirut Waterfront Development S.A.L. a long term loan against issuance of bonds for a total amount of US\$25.2million. This loan is subject to an annual interest of Libor + 2% but not less than 9%, payable on June 30 of each year. The total amount of this loan was due on June 30, 2011. During 2011, the maturity of the above loan was extended to June 30, 2016 with the same terms and conditions of the previous agreement and the accumulated interest up to June 30, 2011 in the amount of US\$11,340,000 was capitalized with the original principal. Interest in the amount of US\$32,715,900 as of December 31, 2017 (US\$29,427,300 as of December 31, 2016) is deferred under "Deferred revenues and other credit balances" in the statement of financial position (Note 17) of which US\$21,384,166 is accrued under "Prepayments and other debit balance" caption (US\$18,106,571 as of December 31, 2016) (Note 7(a)). The deferred interest will be realized when income from the principal activity of the joint venture is realized (Note 17). As of the date of issuance of the financial statements, a new agreement to extend the maturity of the bonds was not signed yet.

32. RELATED PARTY TRANSACTIONS

These represent transactions with related parties, i.e. significant shareholders, directors and senior management of the Group, and companies of which they are principal owners and entities controlled, jointly controlled or significantly influenced by such parties. Pricing policies and terms of these transactions are approved by the Group's management.

Cash and bank balances include US\$17,071,799 as of December 31, 2017 (US\$70,586,587 as of December 31, 2016) representing current bank accounts with a local bank who is a significant but minority shareholder of the Group.

Bank overdrafts and short term facilities include US\$44,094,022 as of December 31, 2017 (US\$110,729,713 as of December 31, 2016) representing short term facilities with a local bank who is a significant but minority shareholder of the Group.

Term loans include US\$ 60,000,000 as of December 31, 2017 representing a term loan with a local bank who is a significant but a minority shareholder of the Company.

Included under "Interest expense" in the consolidated statement of profit or loss an amount of US\$11,120,238 for the year ended December 31, 2017 (US\$6,199,830 for the year ended December 31, 2016) representing interest expense on overdrafts, short term facilities and term loans with a local bank who is a significant but minority shareholder of the Group.

Certain directors are members of the boards of directors of banks with whom the Group has various banking activities.

During 2013, Beirut Waterfront Development S.A.L., (joint venture), granted the Group a loan in the amount of US\$100,000. This loan bears interest at an annual rate of 8%. The principal of the loan shall be paid through monthly payments representing 2% of Grid Resto restaurant gross sales located in “Zaitounay Bay”. The loan was fully settled in early 2017.

The Group has a total net payable balance due to its related parties amounting to US\$460,517 as of December 31, 2017 (net receivable balance of US\$199,793 as of December 31, 2016) (Notes 7 and 15).

Accrued interest income on a long term loan of US\$36.54million granted by the Group to Beirut Waterfront Development S.A.L., a joint venture, amounted to US\$21,375,900 as of December 31, 2017 (US\$18,087,300 as of December 31, 2016), Notes 7(a) and 12(a).

During 2016, the Group charged Solidere International Limited, an associate, an amount of US\$2,750 representing payments on its behalf.

Total benefits of executives and members of the Board of Directors (including salary, bonus and others), included within “General and administrative expenses”, for the year ended December 31, 2017 amounted to US\$3,109,757 (US\$4,146,843 for the year ended December 31, 2016).

Income arising and expenses incurred from the Group’s transactions with other related parties, other than those disclosed in the financial statements, do not form a significant portion of the Group’s operations.

33. COMMITMENTS AND CONTINGENCIES

- (a) An agreement between the Group and the Council for Development and Reconstruction (“CDR”) was promulgated through Decree No. 5665 dated September 21, 1994, duly approved by the Council of Ministers. By virtue of this agreement, the Group was granted 291,800Sqm of the reclaimed land surface (totaling 608,000Sqm) against the execution by the Group of the sea landfill and infrastructure works.
- (b) The total projected cost for completion of the BCD project has been estimated by management to be approximately US\$2billion. This amount is used as a base for the determination of cost of sales.
- (c) Commitments for contracted works not executed as of December 31, 2017 amounted to approximately US\$136 million (US\$100million as of December 31, 2016).
- (d) The Group has submitted to the “CDR” claims aggregating US\$13.6million representing mainly change orders to infrastructure works in the traditional BCD which were incurred by the Group on behalf of the Government. These claims were neither approved nor confirmed by the concerned party nor recorded as receivables in the accompanying consolidated financial statements.

- (e) The Group is a defendant in various legal proceedings and has litigations pending before the courts and faces several claims raised by contractors. On the basis of advice received from the external legal counsel and the Group's technical department, the directors are of the opinion that any negative outcome thereof, if any, would not have a material adverse effect on the financial condition of the Group.
- (f) On June 7, 1997, the Group signed an exchange agreement with the Lebanese Government. By virtue of this agreement, the Group acquired additional built up area of approximately 58,000Sqm and 556,340 Class A shares in exchange for approximately 15,000Sqm and the payment of US\$38.7million to restore governmental buildings. US\$25million has already been paid and accounted for and the balance of US\$13.8million continues to be included under accounts payable. According to the terms of the agreement, the Group undertook to build a governmental building and to conclude ten finance leases over seven years for certain buildings belonging to the Lebanese Government. In 1999, the government canceled the exchange and finance lease agreement. The implementation and the effect of cancellation is not yet determined and has not been reflected in the accompanying consolidated financial statements.
- (g) In prior periods, the Group submitted to the Ministry of Culture and Higher Education claims totaling US\$17.7million representing compensation for delays that resulted from excavation works. These claims were not yet approved nor confirmed by the concerned authorities nor recorded as receivables in the accompanying consolidated financial statements.
- (h) For the purpose of enhancing and improving land value in Zokak Al Blat area and to settle the recuperation of a lot in that area, the Group signed in 2002 an agreement with the Armenian Orthodox prelacy to demolish the building on the recuperated lot and to transfer corresponding building rights to another adjacent lot with minimum building rights of 4,900Sqm against ceding of owners' shares from both lots. Additionally, a built up area of 5,335Sqm (US\$2,700,000) remains as a contingent loss to the Group in case the prelacy decides to build this area within the next 10 years following this agreement. During November 2010, an agreement was signed by both parties in which it was agreed that November 2010 would be the start date for the 10 years period as it represents the date of finalization of parcellation and massing of plots number 1137 and 1138 of Zokak Al Blat area subject to the said agreements.
- (i) The Company is defendant in a lawsuit raised by a Group of jewelers and the jewelers syndicate. The Company appealed the court's decision in which the Company was required to register certain commercial shops in Beirut Souks. The case was deferred until April 4, 2016 and then deferred to June 13, 2016. This lawsuit is still pending until final decision by the supreme court. In 2017, other separate lawsuits were filed in connection with the original lawsuit and are still pending before the supreme court.
- (j) The Company is a party in a claim of a delay penalty estimated at around US\$300,000 for not executing a judgement. Moreover, the Company has appealed the case in front the civil court to cancel this judgement. The case was postponed to February 12, 2016 when the judge condemned the Company to pay the plaintiff a fine of LBP150million. The Company challenged this judgment before the court of appeal on February 19, 2016 and obtained from the latter a stay of execution on March 10, 2016 which shall remain in force until the case is determined by the court of appeal. The case is currently pending before this Court and no hearing has been fixed yet.

- (k) The Group has commitments and contingencies in the form of letters of guarantee in the amount of US\$3,131,764 as at December 31, 2017 (as at December 31, 2016 commitments and contingencies in the form of letters of guarantee in the amount of US\$10,536,966).

34. CAPITAL MANAGEMENT

The primary objective of the Group's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions. No changes were made in the objectives, policies or processes during the years ended December 31, 2017 and 2016.

The capital structure of the company consists of debt and equity. Debt consists of total liabilities less cash and bank balances. Equity comprises capital, reserves, retained earnings, cumulative foreign currency transactions, cumulative change in fair value and deficit on treasury shares' activity less treasury shares.

The Group monitors capital on the basis of the debt-to-capital ratio (gearing ratio). The gearing ratio as at December 31, 2017 and 2016 was as follows:

	December 31,	
	2017	2016
	US\$	US\$
Total liabilities	811,855,493	862,270,308
Less: Cash and bank balances	(40,188,587)	(111,806,517)
Total debt	<u>771,666,906</u>	<u>750,463,791</u>
Total equity	<u>1,899,871,888</u>	<u>2,015,933,403</u>
Gearing ratio	<u>0.41</u>	<u>0.37</u>

35. RISK MANAGEMENT

The Group's principal financial liabilities comprise bank loans, bank overdrafts and short term facilities, deferred revenues and other credit balances, dividends payable and accounts payable and other liabilities. The main purpose of these financial liabilities is to raise funds for the Group's operations. The Group has various financial assets such as accounts and notes receivable and cash and bank balances, which arise directly from its operations. The main risks arising from the Group's financial instruments are interest rate risk, liquidity risk, foreign currency risk and credit risk. The Board of Directors reviews and approves policies for managing each of these risks which are summarized below:

(a) Interest Rate Risk:

The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's long-term debt obligations with floating interest rates. The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other conditions held constant, of the Group's profit before tax.

	<u>Increase/ Decrease in Basis Points</u>	<u>Effect on Profit before Tax</u> US\$
2017:		
US Dollar	+50	587,396
US Dollar	-25	(293,698)
2016:		
US Dollar	+50	1,092,566
US Dollar	-25	(546,283)

(b) Foreign Currency Risk:

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Group is not materially exposed to currency risk since the majority of its financial assets and liabilities are denominated in U.S. Dollar.

(c) Credit Risk:

The Group's credit risk is primarily attributable to its liquid funds, receivables, and other debit balances. The amounts presented in the consolidated statement of financial position are stated at net realizable value, estimated by the Group's management based on prior experience and the current economic conditions.

The Group's liquid funds are placed with prime banks.

The Group trades mostly with recognized, credit worthy third parties and monitors receivable balances and collection on an ongoing basis.

The Group's credit risk exposure with respect to accounts and notes receivable is disclosed under Note 8.

The Group's maximum exposure to credit risk is the carrying amount as disclosed in Notes 6, 7, 8 and 9.

The Group's financial assets are mainly located in Lebanon.

(d) Liquidity Risk:

Liquidity risk is the risk that an institution will be unable to meet its net funding requirements. Liquidity risk can be caused by market disruptions or credit downgrades, which may cause certain sources of funding to dry up immediately.

The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts and short term bank facilities and bank loans.

As of December 31, 2017, the Group's current liabilities exceeded its current assets. In order for the Group to meet its funding requirements and obligations, management developed a plan to restructure and renegotiate its bank loans and facilities for longer maturities. Furthermore, management setup a new sales strategy and collection incentives to increase its liquidity. The plan was approved by the Board of Directors during its meeting held on May 30, 2018.

The table below summarizes the maturity profile of the Group's liabilities as of December 31, based on contractual undiscounted liabilities:

37. FAIR VALUE MEASUREMENT

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained in Note 3.

The summary of the Group's classification of each class of assets and liabilities and their fair values are as follows:

The fair value of financial assets and financial liabilities was determined using the discounted cash flow method based on a discount rate equivalent to the market interest rate.

The fair value of the investment properties was estimated by management based on market comparability approach.

There have been no transfers between Level 1, Level 2 and Level 3 during the year.

38. APPROVAL OF FINANCIAL STATEMENTS

The Board of Directors approved the consolidated financial statements for the year ended December 31, 2017, on June 8, 2018.
